

Add Multiple Students to Canvas Parent

First, [create your parent account](#) and link to a single student.

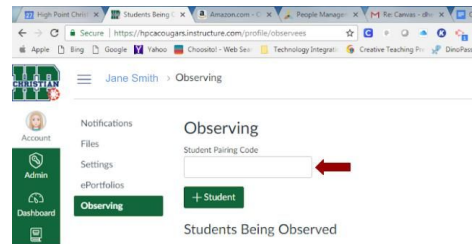

[Generate pairing code for 2nd, 3rd... student](#)

While signed in to Canvas Parent **on a computer**, navigate to

Account > Settings > Observing

Enter Pairing Code

Click on “+ Student”

A single pairing code is active for 24 hours and may only be used one time.

To link a student to a second parent or guardian, simply [generate another pairing code](#) from the student's account and repeat previous step.
