

Generate Pairing Code to Create an HPCA Canvas Parent Account

NOTE - Parents who have already created a Canvas Parent account and linked to their student's Canvas student account do not need to repeat this process.

<p>Before a Canvas Parent account can be paired with a Canvas Student, the student must generate a pairing code. <i>This is done from the Canvas student account.</i></p>	
<p>Log into Student Canvas account and select "Account"</p>	
<p>Select "Settings"</p>	
<p>Select "Pair with Observer" from the right side of screen.</p>	
<p>Please note the code displayed on screen which will be used in the creation of the Canvas Parent account.</p>
