

CORONAVIRUS (COVID-19) UPDATE

Tuesday, April 28, 2020

Dear HPCA 9th - 11th Grade Families -

As we know these times are not as any of us planned, please know that as this school year comes to a close, we will continue to be by your side to ensure we all finish strong! As we have several more weeks of instruction for our students, our teachers will continue to work extremely hard to ensure we wrap up this school year successfully.

Below are several key dates we want to make you aware of:

Tuesday, May 19

- Last day of academic instruction for 9th - 11th grade students
- High School awards virtual video presentation at 7:00 p.m. this evening

Thursday, May 21

- Students in grades 9 - 11 are able to participate in our “drive-thru” end-of-the-year celebration. We will collect all school books, chromebooks, etc, and distribute all locker items, yearbooks, etc during this time.

Specific details regarding the events above will be emailed from the high school office in the coming weeks.

Friday, May 22, 2020 - HPCA Virtual Graduation Celebration

- We will honor our seniors through a virtual graduation celebration at 7:00 p.m.

Tuesday, August 4, 2020 - HPCA Junior/Senior Prom

This event embodies fellowship, celebration, and memories to last a lifetime, and we feel it is important that we plan to hold prom for our students. We will work with the prom committee to determine details of this event and the off-campus location. If health and state guidelines allow us to have an in-person event of this magnitude, our school community supports our eligible students having the opportunity to enjoy their prom!

Friday, August 7, 2020 - In-person Graduation Ceremony

We look forward to inviting our seniors and their families to our campus for a live ceremony where all can celebrate the handing out of diplomas. We know this will be a time for seniors to laugh, cry and reminisce together before heading off into the next stage of their lives.

As we look ahead, we have already begun planning for what our 2020-2021 academic year may look like. We are gathering a task force to ensure that when our students come back on campus, they are safe, healthy, and ready to learn and excel!

Thank you for your partnership with us. We know these times are not as planned, however, we will continue to “REJOICE ALWAYS” through these times.

Thank you -
Dr. Keith Curlee
