

CORONAVIRUS (COVID-19) UPDATE

Tuesday, July 14, 2020

Dear HPCA Community -

We wanted to reach out to you in regards to the most recent communication by Governor Cooper involving public schools. He announced today that public schools in North Carolina will be opening in August under Plan B, which will reduce the overall number of students on public school campuses at one time.

As we have said for the past few months, the plans for HPCA in August remain the same. We will plan to operate in our yellow mode, **meaning all students will be on campus while we screen, space, and sanitize on a continuous basis.** We look forward to welcoming each of you to our campus for our first day of school, Thursday, August 20, 2020. While we are proactively seeking measures to ensure the continued health and safety of our students, faculty, and staff, we feel that returning to campus is in the best interest for our school community.

We understand many of you may have questions and concerns in regards to how we will partner with you to keep our community healthy, and we look forward to providing those details to you soon.

During the week of July 27 all HPCA families will receive our HPCA Safe & Healthy Toolkit. This booklet explains new on-campus protocols focusing on the well-being of our community, as well as division specific learning focused details.

We thank you for your partnership, your support, and your prayers. We know that we will see His hand at work on our campus and throughout our community this year.

Many Blessings!

Dr. Keith Curlee
