

# CORONAVIRUS (COVID-19) UPDATE

Thursday, July 30, 2020

HPCA Families,

As July comes to an end, I am filled with excitement. I know that in just a short few weeks, our campus will be buzzing as we welcome our students and teachers back to school.

Today, I am glad to share with you the attached High Point Christian Academy Safe & Healthy Toolkit. This toolkit has been developed by our task force, which includes parents, Board members, teachers, administration, and medical professionals. Contents of this toolkit are also derived from the CDC, state and local health guidelines and protocols, and dialogue with other schools in our community and throughout the state.

As you review this toolkit, know that we plan to welcome students back to campus in our Yellow Mode on Thursday, August 20.

Please realize that new information and decisions from health officials could necessitate some logistical changes from what is stated in the current version of our toolkit. We will continue to keep you updated in a timely manner as we prepare to kick off the 2020-2021 school year.

*If you have any questions, or would like clarification on portions of this toolkit, please email all questions to [communications@hpcacougars.org](mailto:communications@hpcacougars.org). We will then compile these questions into a Frequently Asked Questions document, which will be sent out to families next week. Individual questions will be answered as well. Families will also receive video communication in the upcoming weeks showcasing our plans.*

On Monday, August 3, families will receive information about our Teacher Meet & Greet and Welcome Back to School, division specific, presentations.

It will be necessary for everyone to do their part in order to re-open the campus safely and successfully. Thank you in advance for your continued commitment to Kingdom Education and for your patience during this time. Please continue to pray for the start of our 25th school year!

Blessings,

Dr. Keith Curlee  
HPCA Head of School
